

NAGARAJAN M

Full Stack Developer | AI Automation Developer | Prompt Engineer

Rameswaram, Ramanathapuram, Tamil Nadu, India | 6379835744 | nagaraj1212005@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science Engineering student passionate about building modern web applications and AI-powered solutions. Experienced in using AI-assisted development to create and deploy projects with modern web technologies. Quick learner with strong problem-solving skills and a continuous interest in learning new technologies and building real-world applications.

TECHNICAL SKILLS

AI & Automation: AI-Assisted Development, Prompt Engineering, n8n Automation

Frontend: HTML, CSS, Tailwind CSS, React

Backend: Node.js

Database & Backend Services: Firebase Authentication, Firestore

Tools & Platforms: Git, GitHub, VS Code, Vercel

PROJECTS

College ERP System | *React, Firebase, Firestore*

- Developed a full-stack college management system with modules for Student Management, Hostel Management, Mess Management, Digital Gate Pass, Fine Management, and Role-Based Access Control.
- Integrated AI-powered automation workflows to streamline notifications and administrative processes.

Blood Donor Finding System | *React, Firebase*

- Built a web application that helps users search for blood donors by blood group and location, enabling faster emergency blood requests.

Media Downloader | *React, JavaScript, Firebase*

- Built an AI-assisted media downloader enabling users to download videos and audio from supported platforms through a modern web interface.
- Implemented authentication and download management, with optimized performance for a smooth user experience.

Balnex Kitchen | *React, Tailwind CSS*

- Developed a modern restaurant website with responsive UI, menu showcase, and engaging user experience.

Nexus Landing Experience | *React, JavaScript, Tailwind CSS*

- Designed an interactive landing experience featuring a premium loading animation, smooth transitions, glassmorphism UI, and responsive design.

Maincrafts Landing Page | *HTML5, CSS3, JavaScript*

- Designed and developed a modern, responsive landing page with premium UI, smooth animations, and mobile-first design.

Portfolio Website | *React, HTML5, Tailwind CSS*

- Created a responsive personal portfolio showcasing projects, technical skills, internship work, and contact details.

EXPERIENCE

Full Stack Web Development Intern — Maincrafts Technologies

- Successfully completed Task 1 – Modern Responsive Landing Page by designing and developing a responsive, user-friendly landing page with a modern UI.
- Successfully completed Task 2 – Nexus Landing Experience by creating a premium loading animation, smooth transitions, and an interactive user interface.
- Built responsive web interfaces using AI-assisted development with modern web technologies.
- Collaborated on project development and delivered assigned tasks within the internship timeline.

ACHIEVEMENTS

- Successfully completed a Full Stack Web Development Internship at Maincrafts Technologies and delivered assigned web development tasks.
- Developed multiple real-world web applications including a College ERP System, Blood Donor Finding System, and AI-powered Media Downloader.
- Built and deployed web projects using modern development tools and platforms like GitHub and Vercel.
- Explored and implemented AI-assisted development and automation workflows using tools like n8n and AI prompting techniques.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science and Engineering

Renganayagi Varatharaj College of Engineering | 2023 – 2027

LANGUAGES

Tamil, English
